YOUNG MEN CHARGE  
WITH CRIME RELEASED

Not Assailants of Young Abbeville—  
—Girls Governor Cooper to Offer  
Reward for Apprehension of  
Guilty Parties.

Columbia, March 17.—James B. Wallace and Lee Bourne, the two young white men lodged in the state penitentiary Monday afternoon on the charge of criminally assaulting two young white girls in Abbeville last Sunday afternoon, will be released today on the statements of the two girls that Wallace and Bourne were not their assailants. The two young women were brought to Columbia yesterday to see the governor, who will order the release as soon as authorized by Solicitor Homer S. Blackwell of the Eighth circuit. The governor will also offer a reward for the apprehension of the men who committed the dastardly crime. A special term of court would have been requested had identification been made.

L. W. Perrin, veteran clerk of court of Abbeville county, was in Columbia last night attempting to get in touch with Mr. Blackwell of Laurens to get authority for the release that the young men might take the early train back to Greenwood this morning.

Another fact developed yesterday was that it was a touring car and not a truck, as previously reported.

In which the young women were taken to ride. They were on their way to church in Abbeville last Sunday afternoon when overtaken by two young men in an automobile and invited to ride. They reluctantly accepted, but added to be put out at the church, which was further on down the road. Arriving at the church the driver refused to stop, driving to the county instead where the crime was committed.

Pacts leading to the arrest were that the car was first reported to be a truck, and Wallace and Bourne were in a truck belonging to the Waldrup Plumbing company of Greenwood, which company employs the two young men.

This was the only truck seen on the streets of Abbeville that day and the arrest of Wallace and Bourne was easily effected in the morning of Monday night. Monday afternoon the prisoners were brought to the state penitentiary, one of the young men not being, as reported, taken to trip Monday to Greenwood to attempt to identify.

The young men were seen yesterday at the penitentiary, but refused to discuss the matter. They had employed the law firm of Grier, Parks & Nicholson, of Greenwood, to defend them. Both young men were reading magazines. Bourne, the younger of the two, appeared somewhat dependent, but refused to discuss the matter. He was employed as a plumber by the Waldrup Plumbing company of Columbia. W. G. Guimarin, company of Columbia, leaving the state capital three or four years ago to work for the Waldrup Plumbing company of Hill, which company has a branch office in Greenwood.

TAKES THREE HOUR FIGHT  
TO SUBDUDE MACON BLAZE

Macon, March 16.—A fire that broke out in the furniture store of A. C. Rhodes & Sons, in the heart of the downtown district at 6 o'clock tonight, was not subdued until a three-hour battle by firemen.

The fire was confined to the furniture store, the third floor, left and roof being entirely burned away.

For a time the flames threatened to spread to other business houses, a strong wind prevailing.

The lower floors were saved by the firemen. The furniture store was flooded with water. H. B. Moore, manager of the furniture store, would not make an estimate of the loss, but said it was at least \$100,000.

PLANS TO DEVELOP  
SOUTH CAROLINA

Landowners' Association Officially  
Changes Name to Suit Better the  
Objects of Organization.

Charleston, March 16.—The meeting of the board of control, the board of directors and the executive committee of the South Carolina Landowners' association, held in the office of the association, was attended by all interested persons. The name was changed legally to the South Carolina Development board, in response to a request from governmental agencies, civic, commercial and trades bodies, who wish to clear general development purposes through the organization, that the name may give a clearer idea of the purposes for which the organization was formed and its functioning; and to clear away the misconception that the organization was promoting real estate propositions and trying to sell cut-over land.

George E. Wheeler, manager, submitted this report, which was accepted by the board without change, and the board of directors, the executive committee and the management for the excellent work accomplished, as it was pointed out that not one undertaking had been in touch with Mr. Blackwell of Laurens to get authority for the release that the young men might take the early train back to Greenwood this morning.

Another fact developed yesterday was that it was a touring car and not a truck, as previously reported. In which the young women were taken to ride. COLBY WILL GO  
ON SENATE GRILL

Accepts Invitation to Testify in His  
Own Behalf. In Meaning Part of  
Secretary of State's (Vanant)  
President Can Remedy Situation.

Washington, March 16.—Bainbridge Colby, secretary of state, accepted an invitation today to appear Thursday before the senate foreign relations committee to make a statement regarding certain questions which are delaying his confirmation. The committee's action is understood to have been taken by common consent of republican and democratic members as a result of information gathered in secret hearings on Mr. Colby's qualifications to head the state department. The nature of this information was not divulged, however, and it was said the statement to be made by him would be regarded in the same confidence.

A transcript of all the testimony taken by the committee, including that given today by Herbert Parsons, a New York lawyer, is said to have been sent to Mr. Colby along with the committee's invitation. The nominee at first had been invited to appear today, but was asked to postpone the naming of American entries until fifteen days before contests begin. It was explained whether conditions were such as to hold elimination contests until late in the spring.

In regard to ruling contents the American committee asked that the United States wishes to enter every year, that that seasonal and collective entries be permitted, but that the conduct elimination contests immediately between colleges and clubs. It was strongly urged that two entries per nation be permitted, the same of the contestants to be announced as soon as they are chosen.

The preliminary work of the American committee is completed today and no further session will be held until the Belgian committee announces its rulings.

24 NATIONS TO TAKE PART  
IN OLYMPIC GAMES

Belgian Committee Determined to  
Have Everything Ready.

Antwerp, March 16.—Twenty-four nations already have officially accepted Belgium's invitation to participate in the coming Olympic games, and the Belgian committee charged with the preparation is going ahead in the face of all obstacles, determined to have everything in readiness by August. The principal stadium is very near completion and work has begun on the natatorium, where 10,000 persons can be seated to witness the water events. The Antwerp Velodrome is being remodeled for the Olympic cycle events.

It has been tentatively decided to open the athletics a fortnight before the official opening on August 14. New York has been named as the American Olympic committee today sent two cablegrams to the Belgian Olympic committee in charge of the contest to be held in Antwerp next July, asking for immediate rulings on questions affecting entries in general and saving entries in particular.

The American committee has received no entry blanks, and as March 16 is the official date for closing of entries, the committee is anxious to get the naming of American entries until fifteen days before contests begin. It was explained whether conditions were such as to hold elimination contests until late in the spring.

In regard to ruling contents the American committee asked that the United States wishes to enter every year, that that seasonal and collective entries be permitted, but that the conduct elimination contests immediately between colleges and clubs. It was strongly urged that two entries per nation be permitted, the same of the contestants to be announced as soon as they are chosen.

THE PRELIMINARY WORK OF THE AMERICAN COMMITTEE IS COMPLETED TODAY AND NO FURTHER SESSION WILL BE HELD UNTIL THE BELGIAN COMMITTEE ANNOUNCES ITS RULINGS.

Morgan will make his home in Chester and expects to bring his family here about the first of May provided a residence can be secured.

As is generally known different people have different opinions and this fact is being brought out by those who attended the musical comedy "The Love Kim" at the Chester Opera House Wednesday night. Some people were highly

pleased with the show while others were disappointed. The show, however, was very little to the plot and "Patsy" who acted as comedian furnished the fun. Without him the show would have been a dead one. Anyway the majority of the audience appeared to be highly pleased and did considerable "milling out" last night.

Three cases of typhoid fever have been reported to the secretary of the Board of Health and we understand, however, that the cases are in various sections of the town but we learn that all of the four cases are interested in the College street school, which is probably a coincidence.

"Can The Dollar Come Back?"

"Can The Dollar Come Back?" is the title of a very interesting pamphlet by Arthur Wymann of the Chicago Railway Equipment Co.

The dollar sale today at a premium is more than half the value it is backed by more gold than any currency that exists. It is the most stable piece of money that circulates and its character, like the mandated of Caesar's wife, is above suspicion.

Why this terrific demand to bring the dollar back? Back to what? The old purchasing power? Why, the march of civilization is a history of

the decreasing power of the purchasing medium. As well talk of sweeping back the tides of the sea as of keeping the purchasing power of a coin stationary. It cannot be done, glory be! and it could be done progress would be hampered to such a degree as to be disastrous.

The dollar is never "going back" to what it was before the war. Civilization increases the wants of men; men's wants raise prices. Then come the great crises when mankind plunges forward 50 years in 10. The horrible tragedy which took its toll of human blood, toppled over empires and changed the face of the whole earth touched, too, the media of exchange, raising prices, and influence is coined into the very metal which circulates. It could not have been otherwise.

Why, then, do men chase shadows and seek by edict to put the dollar back where it was? They might better spend their time speeding the wheels of production and bringing it about that an honest day's work will be given for an honest day's wage. They need not worry about the dollar. It will automatically measure up to the conditions of the day. The trouble is not an inflated currency but an inflated idea of the value of the dollar.

Mr. Wymann has the same idea about our money. He says: "The dollar is not a thing, it is a measure of the value of the nation's money required to finance it, and nothing else." He says: "The dollar is a measure of the value of the nation's money required to finance it, and nothing else."

The dollar may show some increase in its purchasing power as the years go by, but there is not the slightest chance of its asserting its old dominion. The world has moved forward on to a new commodity plane—Manufacturers Record.

## CHANDLER SIX X Famous For Its Marvelous Motor

## Chandler Leads Because of Its Real Worth

It is easy to boast and make claims and to so magnify mere incidents that they may appear as mighty events. It is easy to paint in the colors of exaggeration.

Chandler advertising has never carried boasts or unfounded assertions to the public. It has never extolled some single performance as final evidence of superiority.

The Chandler Six is so distinctly the leader among medium-priced high-grade cars because of its own worthiness, which for sales purposes does not need the support of exaggeration.

Chandler worthiness comes primarily, of course, from its great chassis, light, strong and enduring, featured by the famous Chandler motor developed throughout seven years of constant manufacture with no change of type of design, but with refinements and developments which have kept it long sales leader of any other six.

This isn't a claim. It's the fact, and over sixty thousand Chandler owners would tell you so if you could ask them.

Six handsome bodies, splendidly built and finished, are mounted on the one standard Chandler chassis.

Other cars of some similarity are listed at hundreds of dollars more

## JOHN WALKER

18-YEAR-OLD MISS  
DIES FOR OTHERS

Tragic Tale Comes From Dakota as Worst Blizzard in Past Thirty Years Rages.

Blismark, N. D., March 17.—Five known dead and thousands of dollars damage to property was the toll of the two-day blizzard which swept this state—the worst in more than thirty years. The storm early today was reported to be gradually subsiding with temperatures sinking.

One girl gave her life to save her sister and brother, while the heroic effort of another youth proved futile and his three brothers perished on the prairie during the storm.

When the blizzards were wrecked near Chester by the wind, Haise Mine and his took off her coat and wrapped it and blankets around her small brother and sister. For twenty-four hours they lay in the snowdrifts before they were found by searching parties. Haise was dead, but his action in building up the little ones saved their lives.

Adolph Wolkos, son of Gust Wolkos, a farmer living near Ryder, made a gallant attempt to bring as-

istance to his three brothers when the team of horses he was driving home died from exhaustion. After making his three brothers as comfortable as possible he set out for help. Twenty-four hours later, his father found him and the other three children frozen in deep snow.

Virtually no freight trains were running in this state today and passenger service was slow. Two Great Northern trains were stuck in the snow near Minot.

Reports from Devil's Lake said that there were snowbanks from twenty to thirty feet deep between there and Minot. Hotels at Devil's Lake were said to be unable to handle the stranded travelers there and many persons were reported sleeping in coaches in the railroad yards. Relief was expected today.

## BRYAN AGAIN URGES DEMOCRATIC BREAK

Nebraska Visits Washington and Says, Majority Should Win in Ratification Fight.

Washington, March 17.—William J. Bryan arrived here today from Florida en route to New York to deliver an address Friday night and immediately became a participant in the eleventh-hour negotiations of Democratic senators working for a compromise of the peace treaty.

Although Mr. Bryan said he did not intend to visit the senate nor intervene in the treaty situation, Democratic senators began to consult him before he had finished his breakfast.

Mr. Bryan gave out another statement urging ratification of the treaty.

"For Democratic senators to join with the 'irreconcilables' in defeating the treaty," he said, "is unthinkable in view of its being actually accomplished, and it would be an unpalatable afterthought."

Mr. Bryan said it would be "unthinkable" for the Democratic party to deny the right of a majority of the senate to declare the senate's policy.

"We have the right to appoint the people to reserve the action of the majority," he said, "but we have no right to resist that majority to prevent the people speaking through their representatives."

## SOUTHERN WILL PAY ITS OWN WAY

Refuses to Accept "Standard Return" as Provided.

Atlanta, March 16.—The Southern Railway System will not accept the "standard return" provided in the new Transportation Act, it was learned here today, but will back up the belief of its officials in the continued prosperity of the South by relying on its own earnings during the next six months, it was learned tonight.

President Fairfax Harrison, after a trip through the South, came to the conclusions that conditions were such that the Southern Railway System could produce results which would equal or surpass the government guarantee. The decision will affect the Southern Railway Company, the Cincinnati, New Orleans and Texas Pacific, the Alabama Great Southern and the New Orleans and Northeastern Railroad companies.

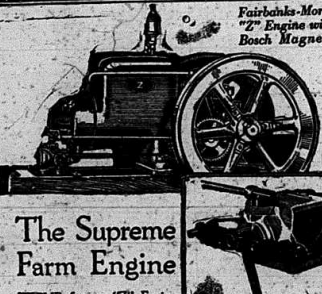

Had the Southern Railway System qualified for the government guarantee, its net income for the next six months would have been assured of being \$12,500,000. Local officials of the South were notified today that the guarantee would not be accepted.

## ALLIED ARMY AND NAVY HOLDING CONSTANTINOPLE

Constantinople, March 17.—Allied troops have occupied this city and the great guns of the British dreadnaught Res Bow, and other giant ships were moved to quays, or anchored in the Golden Horn, command both sides of the Bosphorus.

Every ship is cleared for action. The arrival of the allied forces caused little alarm, nor were there any signs of panic except in Stamboul. Shopkeepers near the war offices closed their places of business when it was heard the allies were coming, but the troops inspired confidence and the stores were soon reopened.

All the allied powers participated in the movement, being under orders from the British commander posted here, the Italian contingent, including detachments having formations on the coast. Four thousand

**BRYAN RECEIVES FORM BOARD'S QUESTIONNAIRE**

Washington, March 17.—William Jennings Bryan received today the first copy of the questionnaire prepared by a committee of the national board of farm organizations for presentation to all presidential candidates in order to place them on record on matters of interest to farmers.

In accepting the questionnaire, Mr. Bryan said he was not at this time a candidate, but would study the series of inquiries and give the farm board his opinion upon them.

Mr. Bryan declared himself as heavily in accord with the principles of requiring candidates to put themselves unequivocally on record before entering upon their campaign.

**STOMACH TROUBLE**

Mr. Marion Holcomb, of Nancy, Ky., says: "For quite a long while I suffered with stomach trouble. I would have pains and a heavy feeling after my meals, a most disagreeable taste in my mouth. If I ate anything with butter, oil or grease, I would spit it up. I began to have regular sick headaches. I had used pills and tablets, but after a course of these, I would be constipated.
